

THE BLAIRMORE ENTERPRISE

VOL. XXXVI, NO. 31.

THE BLAIRMORE ENTERPRISE, FRIDAY, AUGUST 3, 1945.

\$200 PER ANNUM

"Serve the Church that the Church May Save You."

CENTRAL UNITED CHURCH BLAIRMORE

Rev. James McKeiv, Minister

Sunday services for August:

7.30 p.m., Public worship, Rev. G. A. Kestyls, of Coleman, in charge.

ST. LUKE'S CHURCH, BLAIRMORE

Rector: Rev. W. E. Brown

The Rector is on holiday this month.

SALVATION ARMY, COLEMAN

Captain and Mrs. T. Smith, Officers in charge.

Sunday services:

11 a.m., Holiness meeting.
2.30 p.m., Directory class.
3 p.m., Sunday school.
7.30 p.m., Salvation meeting.
Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.
Thursday: 8 p.m., Praise meeting.
Funerals, dedications and marriages on application to the local officers.

HILLCREST UNITED CHURCH:

Services every Sunday at 3 p.m.

BELLEVUE UNITED CHURCH:

Services at 7.30 p.m. every Sunday.

COWLEY UNITED CHURCH:

Services alternate Sunday mornings at 11 o'clock.

Rev. W. H. IRWIN, Minister.

BELLEVUE BAPTIST CHURCH

Pastor: Evangelist, Alfred Siale

10.30 a.m., Sunday school.

11.30 a.m., Morning service.

We preach the Victory Life of Christ, and invite you.

ST. LUKE'S PARISH

The rector, Rev. W. E. Brown, would like, as this period of the church year closes, to acknowledge with gratitude the great amount of voluntary service which is done by various organizations and individuals in the parish, and the considerable self-sacrifice entailed—to all a very hearty "thank you."

The usual activities will begin in September and let our motto be "Advance," as we did last year, as it was indeed a banner year for our parish.

WIN A TOURISTS' LODGE

\$13,000

TOURISTS' LODGE, a 1943 CHEV. ROULET SEDAN, 75 other prizes, 75 prizes totalling \$20,000 or the equivalent in Victory Bonds. Mail this "ad" with ONE DOLLAR subscription to "The Kamloops Memorial Recreational Society," 359 Victoria Street, Kamloops, B. C.

Proceeds to be used to erect a Recreational Centre for our returning Veterans and the citizens of this district. Date of drawing to be announced in press. Don't delay! Act now! 176-45

COWLEY HAPPENINGS

Orin Dwyer, of Coleman, paid a recent visit to his parents here, Mr. and Mrs. George Dwyer.

Mrs. Charles Pitt and four children, of Nelson, B.C., are on a two weeks visit at the home of Mr. and Mrs. Cecil Elton.

Jeffrey Donald, of Calgary, was visiting his sister, Mrs. Wilfred Fortier, and family this week.

Mrs. T. Best, of Macleod, spent a few days visiting at the parental home of Mr. and Mrs. Mose Thibert.

Mrs. William Cochrane spent the week end with Mr. and Mrs. McLean at Macleod.

Mr. and Mrs. Archie Watson returned home to Lethbridge on Friday, following a visit of a few days with Mrs. A. G. Swart.

Miss McBeth, of Calgary, is visiting at the home of Mr. and Mrs. Albert Cleland, this week.

On Sunday afternoon a large crowd of fans gathered in the recreation park to witness a game of baseball played between Cowley and Willow Valley teams, resulting in a 6-4 score in favor of the Valley.

On Sunday last the Cowley United School and the Olin Creek school held a joint picnic at the North Fork river bridge, which was well attended.

The monthly meeting of the Ladies Aid of the Anglican church was held at the home of Mrs. Robert Littleton on Friday afternoon last with a good number of members in attendance. The main items of interest discussed were a text and miscellaneous sale of home cooking, sewing, household arts, etc., on November 10th, and to have printed notices made of services to be held in the church, so that all members may learn when meetings are to take place.

ALBERTA'S REFUNDING PLAN

At a special session of the Alberta legislature held last week the Alberta refunding legislation was duly passed.

After some years of negotiations the bond holders and the government came to a satisfactory agreement. Under the new act provision has been made to clean up Alberta's bond indebtedness over a period of 35 years. The interest rate will be approximately 3.4 per cent on the average.

The Alberta government is to be commended on at last having brought this knotty problem to a solution, satisfactory to both bond holders and the government. This should now put Alberta on an equal standing in the financial markets of the world with the other provinces of the Dominion.

The difficulties that the citizens of Alberta have found in securing loans for business expansion and building during the past number of years will no doubt be wiped out and loan companies will find a satisfactory outlet in Alberta for their surplus funds. This will no doubt stimulate expansion along many lines and assist in solving the housing shortage problem as well as when materials and labor are available.

The main river bridge west of Blairmore is being re-floored.

COUPON CALENDAR FOR AUGUST

August 2, Butter coupon 116.
August 9, Butter coupon 117.
August 16, Butter coupon 118.
Sugar coupon 62.
Preserves coupons P14, P15.
August 23, Butter coupon 119.
August 30, Butter coupon 120.

NOTE: All preserves coupons are interchangeable for sugar purchases.

Butter coupons 90 to 115 expire on August 31. All other coupons in ration book 5 are valid until declared otherwise.

USE "M" COUPONS FOR MEAT RATIONING

Brown "M" coupons in ration book 5, supplemented by specially designed token, will be used for meat purchases when Canada returns to meat rationing, probably early in September, the Wartime Prices and Trade Board announces.

Coupons will become valid at the rate of one a week, and nickel-size, blue, hole-in-the-centre tokens, eight to a coupon, will be used as change for purchases at less than that one coupon.

One coupon will buy from 1 to 3 pounds of meat, depending on group type, with the following values:

Group A—1 pound a coupon.
Group B—1½ pounds a coupon.

Group C—2 pounds a coupon.
Group D—2½ pounds a coupon.

Group E—3 pounds a coupon.

All cooked, canned and fancy meat, as well as red meat, will be included in the ration, but the following will be exempt from rationing: beef brain, head, tail, blood; tripe; calf brain, head; pork brain, head, tail, piglet, sparerib, and lamb brain, head, tail and fries.

STOP EVICTIONS

Suspension of all notices to vacate self contained accommodation has been announced by Hon. J. L. Hopley, minister of finance.

The act of nation-wide increased demand for rented accommodation, freezing leases is a temporary remedy to bridge the gap until new houses are constructed," Mr. Hopley said.

"The real solution lies in making low rental homes available as speedily as possible," Mr. Hopley remarked, and energetic measures are being taken "both directly and indirectly to do this" although shortage of materials and labor has impeded progress.

The government intends to give practical assistance in the form of labor and materials so that low rental projects may be encouraged to the greatest possible extent," Mr. Hopley assured.

Where the order imposes undue hardship on the landlord, appeal to a court of rental appeals is permitted. Other exceptions to the lease-freezing order are "obnoxious" tenants and the three months notice to vacate privilege extended to returned men wishing to re-occupy their own property.

The order does not apply to light housekeeping and other rooms or to boarders or lodgers.

CANADA'S NEW GOVERNOR-GENERAL

Field Marshal Sir Harold Alexander, one of the greatest strategists of the Second Great War, has been appointed governor-general of Canada, to take office next spring. He will be the seventeenth governor-general since confederation and the second British soldier who comes to the office after leading Canadian soldiers in battle. He is 63 years of age.

JOE SINGER DIES AT TWIN BUTTE

Joseph Fensinger, better known in southern Alberta as Joe Singer, passed away at Twin Butte on July 26th, aged 57. He was found dead in a hay field, presumably from a heart attack while operating a moving machine. Born in Austria of Austrian parents, Joe resided for some years in this district, but for the past few years in the Twin Butte district, where he was employed on the R. Age ranch. He was unmarried.

COUNT AND COUNTESS HAUTECLOQUE PAY VISIT TO BLAIRMORE

The French and Belgians of Blairmore were highly honored on Wednesday night by the visit of the new French ambassador to Canada, Count Jean Marie Francois de Hauteclouque, accompanied by his wife, Countess de Hauteclouque, and daughter. Also in the party were Mr. des Gaudries, the French consul of Winnipeg; Michel Dumont, press attache; Mr. and Mrs. L. Plokins and Rev. Father O'Day.

A reception was held in their honor in the Oliva hall at 8 p.m., and was largely attended. A bouquet of roses and carnations was presented by Laura Plard. Welcome speeches were made by J. Bernard, secretary of the Free French of Blairmore, and his worship Mayor E. Williams.

The count in his reply thanked the group for their work during the hard fought war, and encouraged them to continue their support as France needs lots of help yet.

After a light luncheon the party broke up by the singing of the "Marseillaise" and "O Canada."

During their stay in Blairmore they were guests of Mrs. J. A. Brunser. They returned to Calgary on Thursday morning.

Staff-Sergeant "Sonny" McDonald was among the boys returning to Blairmore during the week. Sonny is looking none the worse for his experience. His sister Ann and brother Donald came over from Trail to help welcome him home.

A Parkview men evidently thought its district should be on the map with something unusual, so last week it laid a freak egg. The egg was in two sacs, the white part in one and the yolk in another, both sacs connected by an inch or more of a skin-like tubing.

Pacific College of Optometry, a corporation established in Portland in 1920, has been transferred to Pacific University, Forest Grove, Oregon, effective September 1st. Classes will be conducted, offering four years of work leading to a BS degree with a major in optometry.

Mrs. Walter Marr, one of the real oldtimers of the Pincher Creek district, passed away on July 25th. She was her eightieth year and had resided in the district since 1904. She was a devoted member of the United Church of Canada and a life member of the Women's Missionary Society.

There was a time when people in general had some sympathy for workmen on strike because their cause was justified. But when the whole meat-packing industry of the nation is tied up, in time of war and amid threatened starvation in Europe, over a trivial squabble between two workmen in one plant, this thing is going a little too far. Power can be as dangerous in the hands of ruthless labor leaders as in the hands of any fascist dictator. Both seem very childish in their methods and thoughtlessness of their fellow men.—Pincher Creek Echo.

OFFICIAL OPENING OF NEW ATHLETIC PARK AT HILLCREST

The opening of the new athletic park at Hillcrest will take place on Saturday, August 26th, and promises to be a grand affair. The proceeds of the day will go towards a fund for the building of a new community skating rink.

The opening event will be a dance to be held on Friday night. The programme for Saturday will include baseball tournaments for seniors and juniors; ladies' football tournaments; boys, ladies and girls foot races; tug-of-war, etc. A band will be in attendance throughout the day, and a full course evening meal will be served on the grounds by the church ladies.

A six-piece breakfast suite is to be drawn for. Get your tickets now.

HILLCREST HAPPENINGS

A baby girl was born to Mr. and Mrs. N. Squire recently.

Cfn. Les Rhodes, who has been serving in Europe, returned home last week.

James Craig is a guest of his grandmother, Mrs. Craig, at Pincher Creek.

Mrs. Alex. Grant left by Sunday's bus for Calgary, where she will undergo a tonsilectomy.

Mrs. Angus Grant and two children, Le's and John, of Blairmore, spent last week at the home of Mr. and Mrs. D. Grant.

Miss Betty McNeil enjoyed a week's visit with Mr. and Mrs. J. J. McIntyre at Coleman.

Jacky and Betty Craig are holidaying with their aunt, Mrs. T. Gates.

Mrs. Bachura and granddaughter, Irene Nkolaychuk, left on Tuesday for Calgary, where they will visit Mr. Bachura, who is undergoing medical treatment.

Mrs. Bill Prochack returned to her home in Edmonton after a visit here of a few weeks with Mr. and Mrs. Nick Squares.

Mrs. W. Fisher and son Robert spent a week in Medicine Hat with J. Penn and family.

The marriage of Jean Elizabeth McPherson, of Edmonton, to FO Kenneth Thornton, of Hillcrest, was solemnized at 7 p.m. on June 27th in the Anglican church at Lethbridge, with Rev. Grant officiating. Following the ceremony a reception was held at the home of the bride's sister, Mrs. Norman Pickard, of Lethbridge. The happy couple are honeymooning at various Alberta points until FO Thornton reports for duty with the Pacific forces.

MRS D. R. McIVOR LAID TO REST

Funeral services for Mrs. D. R. McIvor were held from the United church at Stettler on Tuesday, July 17th, by Rev. C. S. Pinder.

Mrs. McIvor was born in Grey County, Ontario, December 7th, 1873. She was educated in Chesley schools and Northern Business College in Owen Sound. For some years she was bookkeeper for the Krieg Furniture Co. and later for the Milling and Mercantile Co. of Chesley.

In 1897 she married D. R. McIvor at Lion's Head, Ontario, who conducted a general store there. Later Mr. McIvor moved to Cowley, Alberta, and for the last twenty-five years has conducted a general store at Stettler.

She leaves, besides her husband, one son, Donald, of Calgary; a daughter, Mrs. George Marshall, of Stettler; five sisters and six grandchildren.

Her youngest son, Flight Sergeant K. McIvor, was killed overseas May 19th 1945.

Pallbearers were R. Maclezie, R. Armstrong, J. T. Costigan, T. Bickle, W. McTaggart and H. Page.

WARRINER GETS MILITARY CROSS

Word comes from Ottawa on Tuesday that "Lieut. Robert Alfred Warriner, 28-year-old soldier from Hillcrest and Toronto, has been awarded the Military Cross for making possible the successful conclusion of an important military operation at Emmerich.

Warriner was in command of No. 2 troop, "C" Squadron 27, Canadian Armored Regiment. This troop was supporting the Canadian Scottish Regiment in their attack on Emmerich on March 29th, 1945.

The Lethbridge Herald says: "The new Alberta government telephone directory is in use throughout the city and district, that the cover is in blue and the listings of subscribers is complete and up to date." Yes, complete and up-to-date to the extent that it carries the names of parties dead fifteen to twenty years or more. Maybe we can still phone them.

THE SERVICEMAN'S CORNER

By J.O.S.

In connection with our common problem of successfully rehabilitating our returned men and women, we come to the consideration of the second group into which we have divided our service personnel for the purpose of employment.

Those who did not have a job at the time of enlistment and were not qualified for any particular position in our set-up of organized society.

Why did these people not have employment previous to enlistment? A number of men and women joined the forces before they had finished high school, or immediately after. As a result they had not been on the market for employment.

Others because of the economic condition of our country were unable to secure full-time employment, and there was not a great deal of inducement to take up a trade because they were never certain of a job even after they became qualified.

Again we cannot forget a certain number who would not work, if they did have the opportunity.

It is not our intention to dwell in the past, but if we are to make of our obligations we will think of the past only insofar as it affects the solutions of our problems of the future.

But what about jobs? How are we to find them? How are we to know what we want to do? These are the questions that are uppermost in the minds of many of our returned men and women. Almost every day when you meet a man or woman who is returning to civilian life and ask what he or she is going to do the answer is "I don't know."

The first essential factor of any successful undertaking is to know what you want to do. Fortunately or unfortunately we are individuals each with our own lives to live, and as such must realize that we owe something to society as well as to ourselves. If your minds have become fogged over by the multitude of occupations available, think carefully and consider the advice of others before you make up your mind. Remember, however, that eventually the choice will be yours, and when you make your decision stick by it.

What factors must you consider when choosing an occupation? First of all can you meet the educational requirements of the particular trade you are choosing? If not can you prepare yourself to qualify?

Is the financial aspect sufficient to meet your needs? Last of all and most important, are you sufficiently interested in the occupation to make it a life work?

Upon reaching your decision, you are then in a position to make application to the department of Veterans Affairs for re-establishment credit. It will be necessary for you to convince the department that the line of work you have chosen is the most suitable for you. This, however, should not present a problem if you have made your decision carefully, and with full regard for your future success.

Remember that the employees of department of veterans affairs, or at least many of them, have the success and failure of the first Great War veterans as a background and are fully qualified to advise you.

In the above paragraphs I have endeavored to create an atmosphere of comprehensive thought on the part of our returned men and women rather than confuse the issue with a maze of technical details.

In the next column I will discuss the problems of the third group—those whose education has been disrupted by the war—and in the following one, the general aspects of the field of employment.

Again I invite inquiries from anyone, that we may become better acquainted with the problems at hand.

PRESS CONVENTION CANCELLED

In accordance with the latest restrictive order of the Wartime Prices and Trade Board, the Canadian Weekly Press Association annual meeting and Victory Year conference, scheduled to be held in Quebec city on September 13-14-15, has been cancelled.

Ton Uhill will be opposed by a CCF candidate in the next BC election.

Canada's Progress

IT IS APPARENT THAT CANADA is emerging from the war with greatly increased maturity and with high prestige among the other nations. Although the people living here make up only one per cent. of the population of the world, Canada has ranked second, third or fourth from the top in many fields of service to the Allied cause, and at the Bretton Woods conference, where it was said "realities ruled," Canada was given seventh place among the nations, according to a standard based on national income, foreign trade and holdings of gold and foreign exchange. At the recent World Security Conference at San Francisco, Canada proved to have influence and authority when her delegates took part in the discussions there. In working together for victory, Canadians have demonstrated their ability to successfully carry out great undertakings, and they also brought about a fuller realization of the great potentialities of their country, both here and in other lands.

Future Hard To Predict

It has been said that "never before has there been a time when it was so hard to read the face of the future," and there is much truth in that opinion. Experience in the pre-war years does not lead us to be over-optimistic, for there are few Canadians who cannot remember the tragedy of unemployment and depression. There remains, however, the picture of what our people were able to accomplish for war, and there is every reason to believe that with continued determination and co-operation we could deal with the problem of peace. War conditions created abnormal demands for labour and unusually favourable markets for many of our products, both at home and abroad. It is clear that the return to normal conditions will necessitate a change in our present economy, and unquestionably the problems involved in this are far-reaching and of the utmost complexity. When compared, however, to the problems of production, shipping, and other branches of the war effort, which had to be speedily and effectively solved, they do not appear so impossible and it is not unreasonable to hope that they can be overcome.

Foreign Trade Is Important

It is agreed that much of our hope for the future lies in maintaining and expanding our foreign trade. Figures show that before the present war of the sixteen leading nations, only three were more dependent on foreign trade than was Canada. The question of markets for agricultural products is a matter of vital concern to a large proportion of the people here. This is being dealt with both by domestic and international bodies, and efforts are being made to maintain the markets through measures to decrease the consumption of food, and the use of other farm products. Dr. Eric Englund, chief agricultural economist of the office of foreign agricultural relations, United States Department of Agriculture, told a recent national gathering of the Canadian Society of Technical Agriculturists at Saskatoon, that results of these efforts might be slow, and that "farmers could expect no magic formula whereby markets for their products would appear overnight." A reasonably high level of employment is necessary to provide markets and adequate prices for all our products, and this may be one of the greatest problems which Canadians must solve, if we are to continue to progress.

Blockade Runners

Got Through The North Sea With Precious Cargoes

Sir George Binney, commander of British blockade runners in the North Sea, told the full story of how he and his men brought out 35,000 tons of precious raw materials from Sweden during the war years.

Under cover of fog, snow and long northern nights, he defied the German blockade of the Skagerrak—the water approaches to Sweden—for more than four years.

Sir George commanded about 400 British and Norwegian merchant men. The cargoes they brought from Sweden could not be obtained anywhere else in the world. They included special steel items such as ball bearings, and 20 machines which increased British production of aircraft engines by 400 per cent.

These machines were so valuable that special shelters were built to protect them against air attacks.

The supplies obtained from Sweden were shared by war industries in the United States and in various parts of the British Commonwealth. Eventually they were able to reproduce the Swedish equipment.

SIGHT RESTORED

An article in Soviet News said that 40 per cent. of blinded soldiers treated by Russian doctors during the war left hospital with their sight restored to a considerable extent.

What is worth \$5 And Sells at 10¢?

Did you know that a 10¢ package of WILSON'S FLY-TOX kills more than \$5.00 worth of any other fly killer? This is true when you use WILSON'S FLY-TOX!

Canadian Art

Sketches By Canadian War Artists

The exhibition of water colors and line sketches by Canadian war artists was shown at the Amsterdam Municipal Art Gallery and attracted many Dutch visitors as well as army personnel.

The pictures are examples of work done by artists of the Canadian Field Historical section and are being shown in Holland before being shipped to Canada for exhibition in Ottawa and other cities of the Dominion.

The exhibitors are Maj. C. F. Connor, Captain G. D. Pepper, Captain O. F. Fisher, Captain C. P. Tinning, Captain D. A. Colville and Lieutenant B. J. Bobak and the subjects include portraits and typical battle-field landscapes garnished with the litter of war.

"These pictures have brought to Amsterdam a new spirit in painting," assistant curator van Leyden commented. "They have directness and a free, courageous attack which reminds me of your soldiers themselves. They are pictures without problems, full of action."

Big Bounty Payment

Every Man In Royal Navy Will Get His Share

A handsome cash "bounty" payment—from a jackpot that already exceeds \$19,000,000 (about \$84,500,000)—awaits every man in the royal navy.

It's a tradition in the royal navy that war booty be distributed among seamen.

The admiralty prize court, which rules on the disposition of all captured goods, has collected an earmarked for distribution among men to date \$19,000,000 from proceeds of the sale of cargoes of enemy ships captured by the navy during the war.

Many of China's tin mines have tunnels so small only children can crawl through them.

Price Control And Rationing Information

Q.—What is the value of the "P" coupon?

A.—"P" coupons are the same as preserves coupons and have the same coupon value of half pound of sugar or standard amounts of commercially packed preserves.

Q.—When will meat be rationed?

A.—Meat will be rationed as soon as the rationing system can be worked out in detail. In the meantime consumers are asked to conserve meat voluntarily by observing meatless days in their homes on Tuesdays and Fridays.

Q.—May farmers still slaughter without a permit if the meat is for their own use?

A.—Yes, they may, but under new slaughtering regulations and excess over these requirements must be sold only to the holder of a slaughter permit who must in turn stamp the meat and submit a record of purchase.

Q.—Is it against the regulations to sell a dress without labels or price tag?

A.—Yes, it is. Since May 15 it has been necessary to have labels placed on wearing apparel, as well as many other lines of merchandise. The labels must state the WPTB license number, the line number and size.

Q.—My restaurant now only serve butter with meals and none with light lunches such as salads, omelets, etc. Does the Board allow this?

A.—Restaurants and other public eating places are on quotas for butter and are not required to serve butter at all meals or with special orders.

Please send your questions or your request for the pamphlet "Consumers News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Price and Trade Board office in your province.

SMILE AWHILE

"Yes, my wife gets more out of a novel than anybody."

"How's that?"

"Well, she always starts in the middle, so she's not only wondering how it will end, but how it began."

You look strong enough to work and earn a living.

Example: "Yes, indeed, and you look beautiful enough to go on the stage. But we both prefer to lead a quiet life."

Businessman's rushing to the Labor Exchange: "I say, I'm looking for a cashier."

"But we sent you one yesterday," replied the clerk.

"Yes, that's the one I'm looking for."

"According to the law of supply and demand—" began her husband, who liked to explain things.

"No one demands anything at a store now, dear," she interrupted; "it's the law of supply and request."

The after-dinner speaker had talked for 15 minutes.

"After partaking of such a meal," he continued, "I feel I had eaten any more I would be unable to talk."

From the far end of the table came an order to a waiter: "Give him a sandwich."

"The office boys at our place had a sit-down strike for three weeks last month."

"A sit-down strike for three weeks? Goodness, why didn't you settle it sooner?"

"Because it was that long before we realized they were striking."

Before the hostilities with Germany ceased, a Yorkshireman visiting London for the first time, found himself in a certain famous thoroughfare.

"Which side is the War Office on?" he asked a passing soldier.

The soldier, looking rather startled, exclaimed: "On ours, we hope!"

Husband: "You're not economical enough in these times; you will have to alter or else you will ruin me."

Wife: "Well, if you don't call a woman economical who saves her wedding dress for a possible second marriage, I'd like to know what you think economy is."

Father: "You ought to be ashamed of yourself, not knowing what you learned at school today. Willie Brown always knows."

Hobby: "Yes, but he hasn't so far to go home."

Reindeer in Canada and Alaska are uniformly brown and grey in color.

MOST DELICIOUS OF ALL CORN FLAKES!

T.C.A. Pilot Wins D.F.C.

Now piloting one of the planes of Trans-Canada Air Lines between Winnipeg and Toronto, J. Wendell Reid, of Sydney, N.S., who at 24 was one of the Empire's youngest wing commanders, was called to Ottawa recently to be decorated personally

by the U.S. Ambassador to Canada with the United States Distinguished Flying Cross.

The citation signed by Lt. General Carl Spaatz, U.S.A.A.F., says: "For extraordinary achievement while participating in the Normandy Beach head area. As a result of his outstanding leadership, W.C. Reid's squadron has destroyed at least 20 enemy aircraft since D-day. His courage, skill and devotion to duty reflects highest credit upon himself and the armed forces of his country."

Reid, who is now a staff officer with T.C.A., was a licensed pilot at 17 and winner of the Webster Trophy as the best Canadian pilot in the Maritimes.

W.C. J.W. Reid, many patrols over the Normandy Beach head area. As a result of his outstanding leadership, W.C. Reid's squadron has destroyed at least 20 enemy aircraft since D-day. His courage, skill and devotion to duty reflects highest credit upon himself and the armed forces of his country.

Justice Meted Out

German Soldier Is Sentenced To Ten Years' Imprisonment

A 22-year-old German soldier was sentenced to 10 years imprisonment by a military court in Flensburg for shearing the hair off two German women whom he accused of giving information to British authorities.

The court found Lieut. Hans Pingel, who has been awaiting demobilization, guilty of leading a gang of a dozen German soldiers in a hair-cropping sortie against two married women named Musche and Schippe, both between 35 and 40 years of age.

The women were pulled along a road by their hair and the ringleader of the gang ordered three of his men to cut off their hair which then was stuffed into the women's mouths.

Musical Prodigy

Blind English Boy Adopted By U.S. Air Force

Jimmy Osborne, nine-year-old English musical prodigy "adopted" by members of the United States 9th Air Force, who were stationed in England, is at the Perkins Institution for the blind, where he has begun his studies.

Since he flew from England, Jimmy has composed a barrel-house piece, "The New York Bounce," and consumed rivers of milkshakes and played the piano endearingly.

The chubby youngster has been able to hear a recording once to be able to play it. His musical aptitude prompted the American fliers to raise funds for his education in the United States.

Here a CWAC

There a CWAC

MEET A CWAC—

"The smartest dressed girls in the world," are made and kept that way by C.Q.M.S. Mary Scholey of Ryerson, Sask., and her staff. Mary is the Quartermaster Sgt. in charge of No. 12 CWAC Composite Stores, Regina, Sask. Her job is the supervision of outfitting recruits, replenishing "issues" that have worn out and seeing to it that the girls have that "smartly-turned-out" look at all times. C.Q.M.S. Scholey and her sister, Betty, enlisted at the same time in May, 1942, and received their basic training at Vermilion, Alta.

Later Mary was sent to Ottawa where she took a Quartermasters' Course; from there she was posted to the Q.M. Stores at the Dundurn Military Camp, Dundurn, Sask., where she was promoted from the rank of corporal, and then to the rank of sergeant. Posted to Regina Q.M. Stores in April, 1943, she became a Coy. Quartermaster Sgt. in Sept. of the same year. Mary has a pleasant smile and is willing to see for all the girls' little difficulties and troubles on Q.M. parades, but no matter what it is, she's always there to lend a helping hand. "My sister Betty," C.Q.M.S. Scholey informed me, "has just arrived in England, where she has been posted to Central Registry, Headquarters, London. We were born in Yorkshire, England; you know, so of course my one great hope and dream is that one day I may be fortunate enough to join her."

CWAC COOKS' COURSE—

"As far as the Army is concerned you can't have too many cooks, so the girls are learning to cook."

The largest number of cooks ever to graduate at No. 1 Canadian Women's Army Corps Training Centre, London, Ont., completed their nine weeks' training recently. They were addressed at a graduation tea by both Lt.-Col. Daisy I. Royal and Capt. Phyllis Laird, Dietician at the Directorate of Supplies and Catering, N.D.H.Q., Ottawa.

"I'm sure you realize the importance of your work because the health and happiness of all the men and women in the services depends a great deal on the food the cooks turn out," said Capt. Laird. The following girls were members of the graduating class: From Sask., E. M. M. Lepp, Caragana; G. H. Greysay, Maroon; L. J. Irvine, MacDowall; G. Slater, Fort Pitt. From Alta.: M. E. Berry, Egremont; C. P. McKelvey, Sawdy; L. Miller, Provost; E. C. Wiersma, Vulcan.

"IN NIGHTS TURN TO OUT NIGHTS"—

At first we all agreed that we would certainly like to shoot the person who invented "in-nights." That one night in the week when ALL personnel just had to remain in barracks and be tucked safely in bed by 10.15.

Of course that was the one night in the week when one felt in the mood to go out, even if you stayed in all the rest of the week—for such is human nature! It had to be a very special and rare occasion before one even dared approach the Platoon Sgt. and plead in a very timid little voice, "Please, sir, I'm absolutely rich great and uncle is passing through town and could one Pte. Smith, PLEASE get permission to see him!" On "in-

nights" it had been our custom to attend lectures, have ABCA discussions, view Educational films, etc., the fact that all these were compulsory was the reason, really, why we shirked and grumbled now and then. With the approach of long warm summer evenings all this has changed, our "in-nights" have become "out-nights." Now please don't jump to the conclusion that we can do exactly what we please, for such is definitely not the case, but we do have a splendid variety of organized outdoor sports in which we can indulge. There's a choice of riding, bowling, roller skating, swimming, cycling and hiking—and for those who insist upon being difficult and find none of these enticing, there is always that good old "agonized sport" of chasing the broom and duster around the Recreation Hut. Strange to say there are very few interested in the latter. "In-nights-out-nights" have become most popular.

SHE'LL SAY IT EVERYTIME—

Pte. Buttercup: Why is a Platoon Cpl. more annoying than a fog horn?

Penelope CWAC: I don't know. Why?

Pte. Buttercup: Because a fog horn only blows every two minutes, but a platoon corporal blows us all the time.

GEMS OF THOUGHT

PLEASURE

Pleasures are all alike, simply considered in themselves. He that takes pleasure to hear sermons enjoys himself as much as he that hears plays.—John Selden.

No pleasure is comparable to the standing upon the vantage-ground of truth.—Francis Bacon.

The difference between false and true pleasure is this: for the true, the price is paid before you enjoy it; for the false, after you enjoy it.—John Foster.

False pleasure will be, is, chastened; it has no right to be at peace.—Mary Baker Eddy.

Well may your hearts believe the truths I tell: 'Tis virtue makes the bliss, where'er we dwell.—William Collins.

Tranquil pleasures lack the longest; we are not fitted to bear long the burden of great joys.—Boyle.

WOULD DEVELOP AROTH

Free interchange of scientific knowledge between Canada and Russia as an immediate aftermath of the war will play a notable part in the development of the Canadian Arctic.

H. A. Innes, professor of economics at the University of Toronto, said in an interview.

Conservation Of Forests Is An Important Topic

OTTAWA.—An enlarged program for the conservation and orderly exploitation of Canada's forest resources may be one of the subjects discussed at the coming Dominion provincial conferences.

With both Dominion and provincial governments concerned with the provision of the maximum amount of employment in the post-war period it is expected either the Dominion or some of the provinces will raise the question of how and by what authority certain steps considered essential to make the forests yield more wealth and employment and to assure their permanency are to be taken.

These steps relate to three main objectives:

1. Protection of forests from fire, insects and other hazards;
2. Reforestation, orderly cutting of timber to ensure replacement by natural growth, cutting of timber when it is prime to avoid loss through over-age;
3. Development of new uses of wood products and promotion of markets.

Before the war some of the provinces made considerable progress with fire protection and in the employment of planes for fire patrol. These services suffered from lack of funds during the depression and have not been improved during the war.

With improvements in aviation, flying facilities and fire-fighting methods they can be greatly improved after the war.

The Dominion government's guide books for post-war planning are the reports of the advisory committee on reconstruction and its sub-committee, completed in 1943. The report of the sub-committee on the conservation and development of natural resources had this to say of the forest fire problem:

"The most serious obstacle to the introduction of planned management of forest holdings is the forest fire problem. Management can only become economically feasible when forest protection reaches the state where forests can be considered as insurable assets."

"Most provinces are financially incapable of providing adequate protection. The Dominion government has a strong, if indirect, interest in forest resources and should give real and continuing assistance to provincial efforts."

FOR USE AS CHANGE

Tokens Permit Purchase Of Meat Less Than Coupon Value

OTTAWA.—Modest, blue tokens, made of plastic and designed to defeat counterfeiters, will appear in the purses of millions of Canadians in a few weeks. Donald Gordon, prices board chairman, said.

The tokens—worth eight for each brown "M" meat ration coupon becoming valid weekly—were manufactured for Canada's United States firm which made similar tokens for its home government. They are stamped with "Canada ration" and the English word "meat" and the French word "Viande". They are ornamented with a small maple leaf and have a hole in the centre.

Mr. Gordon said the plastic composition was made by only one firm and there were other safeguards against counterfeiting.

The tokens will be used as change, permitting a person to buy a lesser quantity of meat than he would receive for a coupon. The tokens will be given the customer as "change", by the merchant only when a purchase of meat has been made and a coupon presented. Merchants will not be allowed to exchange tokens with one another.

The "M" coupons are contained in ration books already issued to Canadians.

GETS DEATH SENTENCE

CAIRO.—Mahmud Issawy, 26-year-old Egyptian lawyer who pleaded guilty to shooting and killing Premier Ahmed Pasha last February after the country declared war on the Axis, has been sentenced to death by a military court.

AWARD FOR CREBBAR

LONDON.—Gen. H. D. G. Crebar—retiring commander in chief of the Canadian army overseas—was received by King George at Buckingham Palace and was awarded the Companion of Honor.

Buy War Savings Stamps regularly.

GERMAN PRISONERS

Are Given Justice With Firmness In Canada

OTTAWA.—The 35,000 German prisoners of war in Canada are given "justice with firmness" even though "some people think that as soon as a war is over you can tear up treaties solemnly entered into," an international official said here.

He was commenting on a despatch quoting the Edmonton Journal as saying that prisoners of war in a "Wainwright, Alta., camp had plenty of food, some beer, every facility for recreation and still were inclined to be arrogant."

"We still have obligations under international conventions and we have just come through a war which we hope will ensure the inviolability of treaties," the official said.

House Shortage Has Lead To Drastic Rulings

OTTAWA.—Finance Minister Isley has announced postponement for an indefinite period of any further evictions of "well-behaved tenants of self-contained dwellings where a landlord desires the dwelling as a residence for himself or for a member of his family."

The minister's announcement said the new order by the prices board would also involve the suspension of all outstanding notices to vacate given under the regulations by landlords of self-contained dwellings and would stay or suspend all legal proceedings, order for possession, or writs of possession taken or issued in connection with such notices to vacate.

"The progressive demobilization of service personnel has aggravated the already acute demand for rented dwellings which exists in almost every inhabited area in Canada," Mr. Isley's statement said.

He noted that the majority of notices to vacate had been given to families or dependents of servicemen who "are now suffering the keenest anxiety at the prospect of being without homes or shelter of any kind this coming winter."

"The suspension of the right of the owner to repossess his property is not, of course, the solution to the problem of shelter shortage," the minister said. "There will be cases in which the remedy will merely have the effect of shifting the hardship from the tenant to the owner who may be without shelter himself because he has sold or given up possession of the house in which he was living at the time of giving the notice to vacate to his tenant and in the expectation of moving into the tenant's house."

"The government believed the real solution lay in 'making low rental houses available as speedily as possible.' Energetic measures were being taken to do this.

"Unfortunately progress has been disappointingly slow because of shortages in labor and materials which take time to correct. Nevertheless, the government is sanguine that considerable progress will be made during the remainder of this year and in 1946. Already Wartime Housing Limited has been authorized to erect 10,000 low-rental dwellings where appropriate arrangements are worked out with local authorities and this should do much to relieve the immediate emergency."

NONE FOR ANIMALS

Rationed Meats Will Not Be Allotted For Their Food

OTTAWA.—Under Canada's new meat rationing system to be instituted shortly no rationed meats will be allotted for the feeding of animals, with some eye dogs perhaps the lone exception, the prices board revealed.

"These dogs are very few in number and consideration is being given to providing a meat ration for them similar to that contained in the previous meat rationing period," the board said.

TRIPLED RECORD

Vancouver Boy's Gas Model Aircraft Stayed Aloft 61 Minutes

VANCOUVER.—Les Westlake, 21, Vancouver, established what is believed to be a North American record for sustained model aircraft flight when his gas model stayed aloft 61 minutes at the Bellingham, Wash., International meet.

Westlake tripled his own previous Canadian record of 22 minutes and pending confirmation from Washington, D.C., is understood to have smashed U.S. records.

AUSTRALIAN PRIME MINISTER

JOSEPH BENEDICT CHIFFEY has been named prime minister of Australia to succeed the late John Curtin. A former locomotive driver and son of a blacksmith, he had been treasurer and reconstruction minister in the Labor government. Six-foot, ruddy and pipe-smoking, he will be 60 in September, and has dedicated his life to improving the worker's lot.

DATE HAS BEEN SET

Trial Of Butcher Of Lidice Starts

About September First

MONDORF, Luxembourg.—Karl Hermann Frank, the butcher of Lidice, will go on trial about Sept. 1 in Prague and whether convicted or not by the Czech-Slovakians will be turned over to the United Nations war crimes commission for trial at Nuremberg after other war criminals. Dr. Bohuslav Eber, Czech-Slovak representative on the commission, said.

SCHOLARSHIP PLAN

CALGARY.—City council has approved a plan to award six annual university scholarships of \$300 each to Calgary students "of first rate ability," without adequate resources to pay for university education. The scholarships will be divided evenly between boys and girls and are payable about Oct. 1 in any year.

WHERE THE BIG THREE SIT—This table in the Potsdam palace was where the Big Three are meeting. They sit respectively: Mr. Truman in chair 1, Marshal Stalin, 2, and Mr. Churchill, 3.

GRADUATE FOR DUTY IN THE SKIES—Looking to move air travel in Canada, with additional schedules planned for transcontinental and intercity services as well as beyond the nation's frontier, 21 new air line stewards have completed their training in Trans-Canada Air Lines Stewardess School in Winnipeg. The girls, all registered nurses, graduated from the thirteenth and largest class held by T.C.A. to date. They were selected from hundreds who have applied for positions on Canada's national airline and represent seven of the Dominion's provinces. The course, which was supervised by Edith Hemington, T.C.A.'s chief stewardess, included studying the fundamentals of flight control, regulations, ticketing and general airplane procedure.

In the right foreground is Miss Hemington and the top left hand corner, Leone Barry, supervisor of stewardesses, western division, while the graduates from nearly every section of Canada are: Misses Yerna Jeffery and Wanda Kenny, Vancouver, B.C.; Dorothy Dann, Edmonton, Alta.; Geraldine Connolly, Calgary, Alta.; Doreen Blackwell, Saskatoon, Sask.; Anne Switzer, Regina, Sask.; Loretta Bouchard, Kerrobert, Sask.; Louise Anderson, Wynyard, Sask.; Mary Adams and Mary Holmes, Winnipeg, Man.; Doreen Wilson, Justice, Peterborough, Ont.; Zetta Dunlop, Seaforth, Ont.; Dora Colquhoun, Windsor, Ont.; Marie Tolmie, Lindsay, Ont.; Kathleen Bauman, Proton, Ont.; Gertrude Lafontaine, Montreal, Que.; Freda Stevenson, Sherbrooke, Que., and Violet Ackles, Parrboro, Cumberland County, N.S.

AIRCRAFT PLANT

British Firm Has Purchased Plant In Canada

OTTAWA.—Sale of the giant government-owned Victory aircraft plant at Malton, Ont., to the Hawker-Siddeley Aircraft Company of London, Eng., was announced by Munitions Minister Howe. No price was mentioned in the announcement and the sale is subject to satisfaction of certain conditions.

The plant manufactured Lancaster bombers for the air offensive against Germany and recently entered a contract to produce a still larger type of four-engined bomber, the "Lincoln", for the war against Japan.

Mr. Howe said a Canadian company is being formed to operate the plant and no interruption of production is anticipated.

"One of the conditions of the purchase by the English company," said Mr. Howe's statement, "covers the establishment in Canada of a design, research and development organization to promote the basic design and manufacture in Canada of all kinds of commercial and military aircraft, turbines for aircraft and other purposes and various auxiliary equipment in which the company specializes."

WEATHER STATIONS

U.S. Will Give Up Five Stations In Greenland

LONDON.—The Danish legation announces that the United States has declared its intention of giving up to Denmark five of the 16 weather reporting stations in Greenland.

American officials—the legation says—have requested that Danish radio personnel and mechanics be sent to Greenland before August to take over the stations.

MAXIMUM FOR DEFENCE

LONDON.—Maximum costs allowed the transience in the trial of William (Lord Haw Haw) Joyce, charged with treason, is £40 (about \$180). Theobald Mathew, director of public prosecutions, said.

GETS FIRST BOND

Can Buy Them Now

WASHINGTON.—Henry Morgenthau junior has bought his first war bond. But it's by no means the first time he's seen one.

Morgenthau, now ex-secretary of the American treasury, said the public over \$200,000,000 worth. Law forbade him to buy one himself while he was treasurer for Uncle Sam.

Morgenthau bought his bond—a \$1,000 one—from his successor, Fred M. Vinson, who had to sell all his when he took office.

Farmers Seem To Prefer Wheat Growing In West

OTTAWA.—Prairie farmers have made clear that if they have to choose between wheat and pigs, it will be wheat every time, government statistics indicate.

Earlier this year, with declines in hog production, official spokesmen said that Canada would be "long on wheat short on meat," and suggested that hog and feed production be increased. Wheat acreage could well be reduced, they said, as major stocks remained on hand in spite of the increase in overseas shipments of the grain.

Two of the three prairie provinces, figures now show, have increased their wheat acreage slightly in 1945, while their hog production has dropped substantially. One, Manitoba, cut its wheat acreage by 15 per cent, upped oats five per cent, and flaxseed 55 per cent, but at the same time could only report hog carcass gradings to July 14 at 963,722 against 1,429,445 for the same period last year.

Saskatchewan wheat acreage is up three per cent from 1944 and oats 1.4, but barley, rye and flaxseed acreages are down. To July 14, hog carcass gradings in that province were 478,875 against 737,541 in the same period of 1944. In Alberta 1945 wheat acreage is up 1.3 per cent, oats 4.5 and barley 5.5. Hog gradings to mid-July were 616,291 against 1,292,981 in 1944.

Officials said the determination to stay in grain production has been in evidence on the prairies in spite of the attractive prices now offered for hogs. The margin between feed costs and hog prices has remained comparatively wide and has increased recently as hog prices have advanced.

Ottawa authorities say they are not critical of the western farmers' decision to remain in wheat production on the 1944 scale, for two reasons:

1. Wheat is a food of inestimable value in feeding hungry Europe. While there are ample wheat stocks on hand, with every indication of a carryover even at the end of the next crop year on July 31, 1946, world crop conditions are such that a surplus of any kind of food in Canada will give welcome security.

2. With long experience of conditions in their own territory, prairie farmers have come to accept wheat as their safest crop. In some former drought districts, which have flourished in recent years of good moisture, there is the persistent fear of a return of dry conditions with consequent elimination of enlarged livestock herds and probable destruction of crops other than wheat.

The United Kingdom and liberated countries have asked for major bacon shipments chiefly because their tasty, popular food can be transported easily and keeps well. Nutritionists say, however, that the food value of wheat is just as great as that of bacon.

Statistically, authorities say that five pounds of grain are required to create one pound of live hog. A hog weighing 200 pounds dresses to 150 pounds and that 150 pounds become about 120 pounds when transformed into withshirps for export. With the bones removed, the 200-pound pig in the form of export bacon is down to about 80 pounds.

The stupendous hog production of the prairies, which reached its peak last year, resulted from conditions officials say may never return. During the greater part of the war, wheat moved slowly from the west and at times there was almost a blockade, with farmers finding it impossible to move all their wheat and other grain production from the farm even to country elevators.

This condition encouraged them to feed livestock on their farms. By the same token, the easier movement of grain to country markets has encouraged them to reduce their herds to return to their normal program of field crops.

Citation List Of Awards Made For Gallantry

OTTAWA.—A ruse of an armored regiment major who escaped enemy hands and then led a successful attack was recognized in a list of citations covering 14 awards for gallantry in action to members of the Canadian army serving in western Europe.

Issued by defence headquarters, the list included two Distinguished Service Orders, three Military Crosses, one Distinguished Conduct Medal and eight Military Medals. The awards first were announced in June.

Cpl. Milton E. Adolph, 24, Gull Lake, Sask., won the M.M. for extinguishing a fire in a carrier that had been hit by the enemy, then digging out his commander with his bare hands. He led the commander and another wounded man on the carrier and carried them to safety before returning to action.

Here are some of the awards:

Maj. Bruce P. MacDonald, 27, Edmonton, won the D.S.O. Although wounded he held a position until ammunition was expended. When it was overrun and he was taken prisoner he destroyed his papers and rank badges and feigned to be shell shocked. He was so convincing the enemy allowed him to straggle and he eventually slipped into a slit trench and escaped.

But this time he was several miles behind enemy lines but he risked his life until he was held up by Canadian fire. This gave him time to note enemy positions and equipment. He finally gained his own lines and with the knowledge of what lay ahead and where it was disposed, he led a successful attack and took a strong enemy position.

Sgt. Joseph E. Bernard, 28, south Nelson, N.B., and Tignish, P.E.I., won the D.C.M. for taking over his North Shore (New Brunswick) regiment company after his commander was wounded and cleared an objective of all resistance.

CANADIAN AIRMEN

Will Not See Service In Pacific Before End Of Year

WINNIPEG.—Canadian airmen will not likely go to the Pacific theatre of war before the end of the year, Air Minister Gibson told a press conference here.

After completing their training in the Dominion they would proceed to Great Britain to join units of the R.A.F.

The minister said some airmen are already in training for the Pacific fighting. They were taking commando training at Brandon, Man., and Centralia, Ont.

Pacific squadrons will train at bases in the maritimes, he said, while reinforcements will prepare at Rivers and Portage la Prairie in Manitoba and Abbotsford and Comox in British Columbia.

GOERING SCARED

When Russians Arrived At Luxembourg To Ask Questions

MONDORF LES BAINS, Luxembourg.—A group of Russian interrogators arrived here recently to question some of the 52 high-ranking Nazis interned in the former Palace hotel—and scared the daylight out of Hermann Goering.

Goering was looking out the window of his fourth floor room when the Soviet representatives arrived.

He leaped up and cried: "The Russians! They are here. I won't see them. I won't talk to them."

But he didn't question him for two days.

PARCELS ON WAY

MOSCOW.—The first 15 tons of supplies for International Red Cross representatives who will handle prisoners of war packages to Allied soldiers in Japanese-occupied territory are en route from Vladivostok in the Manchurian-Russian frontier, it was learned recently.

RUNS INTO BILLIONS

LONDON.—The total war damage and loss inflicted by the Germans on the Dutch is put at 15,000,000,000 guilders (about \$8,000,000,000) in estimates worked out by the Dutch central bureau for statistics in conjunction with the ministry of finance, it was stated in a report issued here.

The word private, lowest army grade, was the name originally given to soldiers hired by feudal barons in their private wars.

Blairmore, Alta., Friday, Aug. 3, 1945

THE DOMINION

PROVINCIAL CONFERENCE

The eyes of all Canadians will be focused on Ottawa as the Dominion Provincial Conference opens in the near future. As the nations gathered together at San Francisco to plan for peace and the future of the world, so the provinces will gather together to plan for the future of Canada. It is a momentous thing to have some of the best brains and most public-spirited men in the country giving their time and thought to making our democratic life secure and more nearly perfect. This conference can be a great demonstration of teamwork, in fact a history-making event that may well change the trend of Canadian life.

It will be a success if each province thinks in terms of its responsibilities rather than its rights, and is willing to acknowledge its own mistakes, rather than highlight the faults of the others. If it results in real progress and a better understanding between the provinces, and a united effort for the good of the whole nation, it will give us a model, war-torn world.

United provinces mean united people. Every Canadian can have a part. It comes down to how we get on with the fellow we work with and how much we have the welfare of our own country at heart. It is this spirit of each home, farm and business across the country that will determine the far-reaching results of this assembly.

We must forge an irrefragable bond that will change the course of history. We have energy, we have resources, we have men. Our one need is the spirit of a new spirit—a spirit above party lines, race, point of view or personal advantage. With this new spirit we can build a pattern of industrial cooperation and national unity that will challenge the world and show a way out of confusion.

At a certain college in the north of New England the male students were not permitted to visit the resident lady boarders. One day a student was caught in the act of doing so and was sent to the principal. Said the Dean, "The penalty for the first offence is 50 cents, for the second \$2.50, for the third \$5, and so on up to \$100."

In solemn tones the trespasser inquired: "How much would a 'reason' ticket cost?"

—V—

Bot. Don't You Try It

Judge: "Did you see the shot that was fired?"

Witness: "No, I only heard it."

Judge: "That is not sufficient evidence. You may retire."

As the witness left the stand and while his back was turned to the judge, he laughed out loud. At once the judge recalled him for contempt of court.

Witness: "Did you see me laugh?"

Judge: "No, but I heard you."

Witness: "Insufficient evidence, your honor!"

—V—

Alberta's coal production for the six months ended June 30th was 3,871,892 tons, being 419,512 tons more than the same period last year.

LABOR EXIT PERMITS RULES FOR STUDENT NURSES

Hon. Humphrey Mitchell, minister of labor, announced recently that instructions had been sent to local offices of the national employment service concerning the issuance of labor exit permits to young ladies desiring to leave Canada to go to the United States in order to take a nurse's training course.

Owing to shortage of graduate nurses in Canada, it is very necessary to maintain a satisfactory enrollment in Canadian schools of nursing so that officers in the women's division of local employment offices are, by frequent consultation with the Registered Nurses' Association, to watch Canadian enrollments closely. Instructions point out this is particularly important during the weeks prior to the enrollment of new nurses in September and January. The issuance of labor exit permits authorizing departure from Canada of girls who are qualified to enter as nurses-in-training will be restricted where it would threaten to adversely affect enrollment in Canada.

Furthermore, the instructions explain that prospective nurses, who lack adequate educational qualifications for admission to Canadian school of nursing, and who consequently enter American schools which have lower educational requirements, are not, after graduation, eligible for registration as nurses in Canada. To avoid disappointment to any young woman unaware of this fact, local employment offices are to refer applicants to the Registered Nurses' Association to have their future position explained before issuing labor exit permits. If an applicant still desires to enter the U.S. for her course after knowing her status, the labor exit permit will be issued whenever the reason for non-admission to a Canadian school is education, health or age.

LABOR MINISTER APPEALS TO BUILDING TRADESMEN

Announcement was made recently by Hon. Humphrey Mitchell, minister of labor, of a campaign through the national employment service to return building tradesmen to the building industry for house construction. The labor minister said this was one phase of the more general plan to provide workers for house building.

Mr. Mitchell said that present shortages of building workers are being felt pretty well all across Canada. While carpenters are in most general demand, other classes of tradesmen and building laborers, too, are needed in many localities.

"While the present housing is of very pressing urgency, particularly to provide homes for veterans," the minister said, "the labor department feels that with the cooperation of workers and contractors the situation can be met. We appeal to contractors to help by listing their labor requirements with the employment offices. We appeal to workers, skilled or experienced in house building operation, who are now working in other industries, to return en masse to house construction jobs."

It was announced some time ago that permits would be given to building workers to work in other essential jobs so that they may return to construction.

Surveys are at present under way by the labor department to secure a co-ordination of information on housing shortages and shortages of construction workers.

"If former construction workers now in other jobs return at once to building," Hon. Mr. Mitchell said, "we believe the situation will largely be relieved. The present situation, it must be remembered, is aggravated by the lack of training of apprentices during the depression, by wartime demands for workers for essential war jobs, and by a good deal of other important construction—the building of hospitals and essential plants—now proceeding."

Work on needed house construction is being given top labor priority by the labor department.

The labor minister said that the present appeal by the labor department also refers to workers for the production of building supplies. Here also the department asks employers to accurately list requirements with employment offices, and also asks workers to return to former employment in building material production by registering immediately with the offices of the national employment service.

A woman in Calgary is named Saucier. May be she is.

THIS MEANS YOU

If you want to live in the kind of a town

Like the kind of a town you like, You needn't slip your clothes in a grip And start on a long, long hike.

You'll only find what you left behind, For there's nothing really new, It's a knock to yourself when you knock your town—

It ISN'T your TOWN—it's YOU!

Real towns aren't made by men afraid That somebody else gets ahead.

When everyone works and nobody shirks

You can raise a town from the dead And if while you make your personal stake

Your neighbor can make one, too, Your town will be what you want you see—

It ISN'T your TOWN—it's YOU!

—V—

Quinine was isolated for the first time in 1820.

T. F. Hefgen, director of forestry for the provincial government, announced early in the week that the bush fire situation throughout northern and north-western Alberta was extremely serious. There were eight fires reported in the area.

"The best thing for you to do," said the doctor to the man with a nervous complaint, "is to stop thinking about yourself and bury yourself in your work."

"Good heavens!" said the patient. "I'm a concrete mixer."

"My wife," said Mr. Henpeck, "kisses me every time I come into the house."

"Ah," said his friends, "that's affection!"

"No," sighed Henpeck, "that's investigation."

The S.A.E. grades are separated—each will be made to do a better job on the engine of your car.

PEERLESS MOTOR OIL

It's Alloyed!

Rationing helps the FARMER

HERE'S HOW!

- Rationing assures everyone a fair share of scarce foods. Without rationing, farmers might get all the butter they need; they might not get sugar. City dwellers might get sugar but no butter.
- Rationing helps to keep prices steady.
- Rationing has assured farmers sufficient ammunition to protect their crops and livestock.
- Rationing makes it possible for farmers to get coupons to feed harvesters and other transient farm workers.

RATION BOOK

The FARMER helps Rationing

HERE'S HOW!

- By collecting and turning in the coupons acquired against the use and sale of butter and the sale of honey and rationed maple products.
- By writing to the Local Ration Boards for application form RB-77 as SOON as they know definitely that transient labour rations will be needed to feed extra help hired for periods of less than two weeks.

Rationing is not intended to add unnecessarily to the burden of Canadian farmers who, faced with shortages of labour, materials and machinery, have continued to respond to repeated calls for greater production.

It is a protection against waste . . . shortages . . . inflation.

RAF-1

JOHNNY HOME

Fourteen years ago Sergeant Frank BA's, no little fame, and a radio copy-
Shuster and Johnny Wayne (shown tract. They went overseas as army
above in that order) began reversing writers and comedians in 1942 and are
positions as talker and typist for a home at it again for "The Johnny
complete collaboration in writing com- Home Show." The new serial goes on
edy, lyrics and tunes. They began the CBC trans-Canada network Fri-
early in high school, pursued it days at 8:30 p.m. CDT.

"Now, my good people," boomed the
majority candidate, making a final
attempt to interest his audience, "what
do we need in order to carry this city
by the biggest majority in its his-
tory?"
"Another candidate," cried a voice
from the rapidly thinning ranks of
listeners.
"v"
As the shifty-looking individual pre-
pared to leave the restaurant, another
diner accosted him timidly: "Excuse
me, but do you happen to be John
Smith of Newcastle?"
"No, I'm not," snapped the shifty
diner aggressively.
"Oh-er-well," replied the other, "you
see, I am, and that's his overcoat
you are putting on!"

HOMETOWN

Radio writer and actor, Bernard
Braden, looks to Vancouver as his
home town, but the "Hometown" he's
looking after right now is an odd lit-
tle Canadian community about which
he has written 13 plays. As author
and producer, Mr. Braden will pre-
sent the sixth episode of his series from
Toronto on Monday, August 13th, 9:30
p.m. CDT, over the CBC Dominion
network.

Is this
all you
have put
aside for
next winter

The coal you will burn
next winter will have
to be mined this Spring
and Summer and haul-
ed by the railroads to
dealers' yards before
harvest.

There will be plenty
of coal if everybody
cooperates by buying
at once—and keeping
the mines in operation.

Everything depends on
YOU... Be wise. Fill
your bin today.

WORLD HAPPENINGS
BRIEFLY TOLD

The gasoline ration for London taxicabs has been increased from 90 to 120 gallons a month.

Trans-Pacific air mail service from Canada to Australia, New Zealand and Fiji has been established.

The circulation of the London Sunday Express has exceeded the 2,000,000 mark for the first time in its history.

The Moscow radio said that Russia and Poland have signed a trade treaty giving each other a "most favored nation" status.

The United States army will stop supplying food to civilians in Italy and in the liberated countries of Europe on Sept. 1, the U.S. War Department says.

The French tire and rubber industry, which has been operated since the liberation with the aid of the United States army ordnance department, has been put on its own.

The R.A.F. 2nd tactical air force in which a large proportion of pilots was Canadian, has been merged with British air forces of occupation, the British Air Ministry announced.

Official discharge badges have been distributed to members of the corps of Canadian firefighters in recognition of their three years' service overseas, the War Department at Ottawa announced.

The Montreal Star says a new national housing plan contemplates erection of at least 10,000 housing units across Canada at a cost of \$50,000, to be offered at a minimum rental with priority to veterans.

Wonderful Machine

Runs Over Surface Of Manufactured Products To Measure Irregularities

A new British machine for testing the surfaces of manufactured products down to one-five-thousandth of an inch. This machine, called the topograph, runs over the surface which is to be tested at a speed of 10 inches per minute and draws a graph of the irregularities, magnified 20,000 times or more, with an automatic diamond-pointed pen. The operator then reduces the height of the irregularities shown on the graph by the conversion factor for which the instrument is set. The mechanism of this "magic pen" is hydraulic and driven by compressed air at any convenient pressure between 25 and 30 lb. per square inch.—Fort William Daily Times-Journal.

Twin Sisters

Were Re-united After A Life Long Separation

Twin sisters, separated at birth and neither certain the other was alive, were re-united through a chance meeting in a Toronto department store.

Both married to navy men, Marion, now Mrs. Vincent Smith, was brought up in Toronto, while Margaret, now Mrs. Roland Judson, had lived in British Columbia with foster parents. Margaret, now in Toronto to obtain her discharge from the C.W.A.C. Noting their similar features, the 21-year-old women stared at each other when they met, began asking questions, finally established their relationship, and embraced in tears.

Insects have killed more men than all the wars in history put together.

SUNDAY SCHOOL LESSON

AUGUST 5

ISAAC'S HERITAGE

Memory Selection: I have a goodly heritage. Psalm 16:8.
Lesson: Genesis 21-24.
Devotional Reading: Psalm 16.

The Text Explained With Comments
A Sacred Commission, Genesis 24:1-10. From the day that Abraham left Ur in Chaldea he had lived under the conviction that he was being driven forward in a definite course by Jehovah, his God. The amazing events of his life, the fortunate outcome of his movements and the divine promise by which he lived, all combined to convince him that high destiny awaited him, and his heirs. As he came down to the end of his days he anticipated the time when Isaac, his son, would inherit his fortune, the family honor, and the sacred responsibility; and with fine discernment and profound wisdom he undertook to make provision for perpetuating the holy trust imposed upon him by Jehovah. Such provision, of course, had to provide for the carrying on through the next generation. Accordingly, the custom and tradition of the East it was his duty to arrange for Isaac's wedding; to keep faith with the promise given to him by Jehovah, the bride must be chosen from among those who would make the sacred commission their own. Abraham did not dare to make a mistake at this point.

Elder's Journey and Prayer, Gen. 24:10-14. In nothing did Abraham show greater wisdom than in the choice of the servant who was to carry out this delicate and important mission. The ten camels indicate that it was necessary to make up a considerable party, for safety had to be insured in a dangerous country, and ample preparation had to be made for the bride's comfort, together with that of her attendants, upon the return trip. "Having all goodly things of his master in his hand," verse 10. He went prepared with valuable gifts to plead the case in true Oriental fashion. No small part of the success of his venture would depend upon his ability to impress the family of the prospective bride with the importance of the family of the groom, and lavish gifts were the usual credential offered.

"The choice of a wife for Isaac was no casual incident; it was not something standing apart from the main line of history and something which might therefore be left to Isaac's unassisted thought and arrangement; it stood as a part of a promise; it was a clause in a solemn covenant; it was sacred as prayer, and joyous as a morning psalm."

COMMUNITY CAFE

Labor employers at Nairn, Kenya, E.A., are planning a central eating house which would provide meals at low cost for some 400 Africans who live outside the town and cannot afford regular mid-day meals.

FINDS RECORDS INTACT

American authorities have seized the 700-room German patent office in Berlin and found "almost all" the patents records intact in a deep sub-basement, it was announced.

Vanilla vines are cultivated under trees large enough to afford shade because they cannot stand much direct sunshine.

Battleship Nevada

Absorbed Hits From A Suicide Plane And Shore Battery

Veteran of two years, the United States battleship Nevada absorbed damage from a flaming suicide plane and five hits from an Okinawa shore battery but stayed in the fight.

The navy told the story of the actions which occurred as the famous old ship was operating as part of a formation assigned to obliterate enemy installations on the island.

The Kamikaze struck before daylight March 27, causing 60 casualties including 10 enlisted men and one officer killed and 30 seriously injured. Despite her damage, the Nevada was back in action within four hours.

The next week, on April 5, while still pounding away at Japanese airfields, shore defenses, supply dumps and suspected troop concentration points, a coastal battery opened fire.

The Nevada, which crunched through German installations at Normandy, Cherbourg and Southern France, slugged it out for 18 minutes. During the engagement the enemy fired an estimated 24 shells, five of which registered. They killed two men, seriously wounded eight others.

The Nevada's damage was repaired overnight, and the next morning she was back on the firing line.

It was the Nevada's first damage since Pearl Harbor, although she was "straddled" by German shore batteries during the bombardment of Cherbourg.

At Pearl Harbor, she was the only capital ship to get under way during the attack. About 40 minutes after the Japanese hit, she cleared her berth unassisted and started down the south channel. Heavily damaged and drawing water, she was beached to prevent blocking the channel.

GLOOMY OUTLOOK

Apple pie and cheese will be scarce this coming winter. The weatherman put a crimp in the apple crop and the Dairy Products Board is taking the cheese, states the Farmer's Advocate.

Health
LEAGUE
OF
CANADA
presents
TOPICS
OF
VITAL
INTEREST

While the riddle of cancer is not yet solved, more progress has been made in our knowledge of it in the last 40 years than was made in the preceding 3,000 years, says Dr. W. J. Deadman in an article in the current issue of Health, official publication of the Health League of Canada.

Dr. Deadman is chief coroner of the city of Hamilton and is a member of the National Board of the Health League.

Cancer is not a modern disease. The Egyptians knew it and described it in 1500 B.C. and Hippocrates, the Father of Medicine, described the disease in 400 B.C. and gave it the name of "cancer" which is the Latin term for crab.

The 20th century brought a great expansion in the study of cancer and, as a result of findings from these studies, Dr. Deadman comes to the following conclusions:

Cancer is a disease which has many forms and attacks any of the tissues of the body. Several causes of cancer have been found but none of them cause all forms of cancer. Certain chemicals which are closely related to chemicals normally in the body can cause cancer. The theory that cancer is caused by a virus is strongly held, but has not been proven as regards human cancer. It is doubtful that heredity is a factor in human cancer.

Surgery and X-ray (or radium) are the recognized means of treatment. Early cases which have not spread from the primary site are hopeful cases, and more than 50% of the early cases can be cured. The earlier the case, the better the chance of cure.

The secret of cancer may be discovered when the chemistry and physics of the cancer cell can be studied and compared with that of the normal health cell.

Dr. Deadman remarks that cancer appears to be increasing, but adds that it is a disease mainly of life after 40 years, and today the average life expectancy is 60 years, whereas at the beginning of the century it was 40 years. There are, therefore, more people in the cancer stage.

THE HORSES ARE KAPUT—A mass of molten metal is all that remains of the four-horse chariot of victory on shell-battered Brandenburg Gate, the pride of Berlin. Other familiar tourist landmarks in downtown Berlin, including public buildings, embassies and department stores are destroyed or heavily damaged.

Hunting For Bombs

Two Deeply Buried Unexploded Bombs In Britain

Work is going on to retrieve two deeply buried unexploded German bombs at Water Meads, a Mitcham beauty spot, and at a timber yard in South Croydon.

At Mitcham war-time visitors to the Water Meads have been unaware that an unexploded bomb has lain deeply embedded in the willow plantation—which is grown to make cricket bats—since the 1940 blitz.

The Water Meads has been open to the public throughout the war, but not the plantation.

Here a big job confronts the Disposal Squad, for the bomb has slipped down into the earth near the edge of a small river and much pumping had to be done before digging can begin. At South Croydon a 2,250 lb. bomb, for which search is being made, has sunk deep into the mud and water of an underground stream.

Hog Market

Decline In Production In Canada Is A Serious Matter

The decline—almost the fall—of the empire of hog production built in Canada and the United States during the war was painted in somber figures in the agricultural department's review of agricultural conditions.

Here are the figures, given urgency by the cry of Europe for meat:

1. In January, 1944, North American hog numbers reached the record level of 99,000,000 head. In January, 1945, this figure had been reduced to 74,000,000, and a further reduction is probable by the end of this year unless the present trend is checked.

2. Continental Europe prior to the war accounted for about 28 per cent. of world swine production, but in 1945 the total is about 50,000,000 head, or less than 19 per cent.

3. In June the Canadian meat board, in charge of bacon exports to the United Kingdom, had received about 235,000 head smaller than the record total for the first half of 1944.

In spite of the major decline in hog marketing through inspected slaughtering, officials said it was estimated the minimum contract—45,000,000 pounds in 1945—for bacon to the United Kingdom would be met, with even the present reduced wartime hog production far in excess of what was available for marketing before 1939. The enlarged wartime production roused hopes that Canada would be able to retain indefinitely the major British market, formerly held by Denmark, but now some authorities say the United Kingdom can show large scale production will be maintained into the post-war period.

When a woman is down in the dumps she will go and buy herself a hat, which may account for some that we see.

BY GENE BYRNES

It's Cooling

"ICE TEA"

OUR COMPLETE SHORT STORY—

Duke's Mistake

By CHRIS ROBERTS

McClure Newspaper Syndicate

While the act was on Min could scarcely breathe. Her throat would go dry and she would plead with Duke: "Don't turn your back on the cat! Keep him moving!"

Min would watch the fire in the big creature's eyes. She would try to turn him; stop that stinking, stinking. And she had always done it until one night at the end of the season.

Duke Cranston, trim and fit as they make them, blond hair, smooth cheeks that were flushed a bit beneath his steel blue eyes, seemed but a boy as he stood there in the dressing room before the show.

"Fifteen years today, Min," he said, "started with the cats. Been three years with the big Bengal."

"He's still a jungle devil," said Min.

"And with plenty of brains," added Duke. "If he'd just come through, honey. The big cat would put us in the Winter Garden."

"And an apartment nearby," "Have some friends dropping in," "and . . . and . . . maybe a baby," whispered Min.

"Lord, girl!" exclaimed Duke. "I've just got to get him back on his haunches again. . . I've got to . . ."

"Some day," Min encouraged, "some day he'll get it, and without the lash across his feet."

"Sure, I know how you feel, sweetheart. The big fellow knows the crack of the whip, and he gets the command, but I've got to . . ."

"No! You just can't turn that lash across his legs and get away with it. But, maybe, now . . ."

"Just keep in mind," emphasized Min, "the night you looked through the rungs of your smashed chair."

"Heck, yes!" Duke shuddered, and stooped to wipe some dust from his patent leather boots.

Duke's whip had lifted the animal that night, but he had not stayed back. The tawny front legs had come up for a moment. Then the cat had sprung straight out and down. The act had failed. It was too dangerous to repeat.

Tonight, inside the iron-barred arena, was the best show of all. You could hear Duke yelling at the big royal; then the cat would scream at Duke just as if he were mocking him.

"You're getting nervous again," cautioned Min, "and you're making him jump, Duke! Look at him!"

The huge beast's cries were so loud you couldn't hear Duke at all. Not even the pistol cracks of his whip. Now all eyes were on the round cage. There wasn't anything to see but Duke's stuff.

"Watch him every minute, Duke! Don't take your eyes off him!" Min had left the cage. She clung close to the heavy bars, flinging cautioning words to Duke.

"Don't worry, honey! He's soft as a puppy tonight!" Duke laughed and sent the handsome stripes back up the steps, the whip snapping fire above the creature's gleaming rump.

Min watched the awaying head of the Bengal; she caught the wicked glint in his eyes. He was working closer to the ground.

"For heaven's sake, Duke! Keep him back!" Nervous she ran her fingers through her black, waving hair. She couldn't trust the animal; its docile purr and calm inanity did not deceive her. She tried to keep her chin from quivering.

"Coming, O.K. hon. The big boy is loving as a quivering girl tonight!" Duke brought him down from the high platform, marched him across the floor of the arena and rolled him over like a terrier. Then came the

amazing crack of the whip, and the cat went bounding up the staircase. "Up! Up!" There was no particular hope in Duke's heart, but he followed with whip-mast signals in quick succession. The lash blazed along the tiger's silken side. Duke kept right after him; crowding, pushing him.

Min watched the long corded muscles contract under the striped coat; she noticed that the sound of Duke's whip brought reaction from the beast. She didn't like that.

"Careful, Duke! Careful!" Min's voice was strange, hollow.

"What the heck?" Duke gave Min a quick glance. His right hand moved backward; his arm lowered as he turned. The lash went through the air and swung outward, curved rope-like in writhing coils. The tiger crouched and flashed out a protecting paw. The stinging whip snapped like a pistol shot; it was blistering hot across the Bengal's uplifted leg.

The black and yellow stripes leaped upward, on to the high platform at the top of the stairs; slowly, gracefully, he moved to the end . . . and, as Duke's eyes remained glued to the great, handsome head, sat up like a dower's pet poodle.

With icy grasp, Min clung to the iron bars of the cage. Oh! Oh! She gasped. "Look . . . look at those paws! See, Duke! He's posing . . . posing there in the spotlight!"

The roar of the audience broke into waves that rolled across the ceiling of the massive tent. Duke turned. Gratefully, he bowed low. The stripes of the big animal flashed through the air. The thunder from the crowd calmed into dying gasps. Min sank to the sawdust-strewn ground as the monster landed noiselessly just back of Duke.

Min didn't hear the screams; she didn't see the horror-struck faces high on the seats above them. Duke did, and he turned to meet the treacherous, oncoming rush.

The tiger reared and stretched full length upon his hind legs and, as women fainted in their seats and men turned away their aghast faces, put his paw on Duke's broad shoulders and planted a cold nose against Duke's momentarily stupefied face . . . in a gentle, affectionate kiss.

All-Purpose Frock

By ANNE ADAMS

Season your all-purpose frock with scallops, for that sought-after feminine look. Pattern 4842 flatters all figure types; just long, straight seams to stitch up.

Pattern 4842 comes in sizes 34, 36, 40, 42, 44, 46. Size 36 takes 3 1/2 yards of material.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

"Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

HELD IN FRANCE

Jack Cummings, Plymouth, Eng., sent £10 (\$45) in a registered letter to his son aboard H.M.S. Arcturion in the Mediterranean and later was informed it had been lost through enemy action. Now Cummings has received the same letter, with the £10, with the post office note: "Detained in France during German occupation."

On the Canadian scene: At Melfort, Sask., the menfolk of the Anglican church reversed things by pouring tea at the town social. . . Mrs. Annie Elliott has just renewed her subscription to the Tara (Ont.) Leader for the 46th consecutive year.

Olson Brothers at Folkeville, Alta., tried to keep beavers on Berry creek away from their grove of trees, building a wire fence on the bank; the animals dug a neat hole under the fence, cut out some largest trees and pulled them through the hole for their dams. . . Fred Bennett at Kegonsa, northern Ontario, was landing an 18-inch pike, when another tried to swallow it, as a result he landed the 20, the latter being a 24 pounder. . . Mrs. James Stewart, Hebb's Cross, N.S., tells of 10-months old hybrid pullet laying an egg 6 1/4" by 9", two minutes later laying two soft shell eggs of normal size, and that we call over-production.

The fishing industry is really something in the Maritimes, a New Brunswick weekly paper tells us, giving the following interesting information: Canada's list of food fishes embraces nearly 60 different kinds, chief among which are salmon, herring, cod, lobster, whitefish, halibut, sardines, haddock, pilchard and pickerel. The total quantity of fish of all kinds taken by Canadian fishermen in 1944 was 12,362,898 cwt., for which fishermen received at the point of landing, a total of \$46,031,731, compared with a catch of 11,233,710 cwt., with a landed value of \$41,734,723 in the preceding year.

The Red Cross gets contributions from a lot of sources in Canada and one of the oddest is from "wishing wells" in national parks. The public seems to take kindly to donating to these places, the "wishing well" in Banff National Park, Alberta, is a pool just below a waterfall. In it were dropped "wishing coins" to the value of \$630.14 during the past season. In Riding Mountain National park, Manitoba, the "wishing well" netted a total of \$202.66, this amount being deposited in the pool by none less than 21,295 persons.

Not so many Canadians appreciate the importance of catering to tourist trade, but this editorial in the Midland Free Press indicates the editor knows what it's all about: "Tourist traffic is merely a sub-division of the goods and services which go to make up the total volume of trade between nations. Many persons have the same difficulty in realizing this as they have in believing that exports of grain from the prairies affect the income of fishermen in Nova Scotia, or that the success of our commercial service in finding a market abroad for products of the factories in Quebec has its repercussion on the welfare of families on the Pacific coast. Not everybody comes into direct contact with the tourist traffic. Everyone knows that hotels, railroads, airlines, restaurants, and curio shops draw part of their revenue from the tourists, but actually the payments made by tourists for services and goods 'reach down through the whole economy'."

The Saskatchewan Co-operative Creamery Ass'n. is the largest of its kind in Canada, and when it opened a plant at Shaunavon recently, it was the 31st branch in the organization. Last year the Co-op. made 20,000,000 lbs. of butter.

The King's County Record at Sussex, N.B., makes it plain that the growing influence of home and school associations throughout the Dominion really means something: One of the greatest opportunities for women to day to yield an influence which can be felt far beyond her immediate community comes through her membership in some organization which has for its primary purpose the improvement of unfavorable existing conditions in educational, social or economic life. Her opportunity may lie in the Home and School association which has for its objective the improving of the educational facilities in her community. By her sympathetic co-operation she has the satisfaction of seeing the situation studied and adjustments made. For only through sympathy and understanding do these changes come.

Indicative of the spirit of the early settlers of Maine are towns named Hope, Harmony, Friendship, Unity, Concord and Union.

Meaning Of Citizenship

Questions Worth Considering By The Young And Old

When Saul of Tarsus faced his accusers and said, "I am a Roman citizen; I appeal to Caesar," there was no question as to what was meant by the words, "Civis Romanus sum."

When the scribes wrote in the Great Charter at Runnymede, "To no free man will we sell or deny or debase," neither King John nor his Barons had any doubts as to the nature and value of freedom.

When Sir John A. Macdonald declared, "A British subject I was born—a British subject I will die," he knew, both racially and in his own person, the faith and loyalty wherewith he spoke.

But when we say, "I am a Canadian," what do we mean? More important still, when we administer the Oath of Allegiance to a newcomer, extend to him our full political rights, and tell him that he is now a Canadian, what does he think that we mean and what does he think that we are doing for him? Most important of all, perhaps, when our boys and girls stand up on the first of July, to salute our flag and sing O Canada, what is their idea of their rights and duties in this Dominion which stretches "from sea to sea and from the river to the ends of the earth?"

These are questions worth consideration by all Canadians, young or old, and whatever their "racial origin."

Carry Heavy Load

R.A.F. Halifax Bombers Now Taking Supplies To British Land Forces

R.A.F. Halifax bombers, in which Germany now drop supplies to British land forces, the ministry of aircraft production revealed, while an announcement disclosed "cockpit daze" in night-flying planes had been remedied.

The Halifax able to drop larger items of equipment than transport planes of any other country, carries a six-pound gun, a jeep to tow it, a gun crew, driver and ammunition—all of which are dropped through bomb bays. In American Dakotas, on the other hand, these planes have to be unloaded through the door.

The announcement about plane lighting said two kinds of lighting used together solved the problem of "cockpit daze."

Fluorescent lighting was used for the instrument panel and red lighting for the general illumination of the whole cockpit—together with an adaptation of the reflectionless show-window glass.

Big Job

Canadian Airmen Operate Longest Transportation System In The World

Flying on one of the war's least publicized jobs, Canadian airmen in India have helped build what is today one of the most efficient, far-reaching aerial transportation systems in the world.

Keystone of this war is the ability to move men and materials over tremendous distances at top speed, and much of this need is being met by crews and planes of a single R.A.F. group which runs a regular airline schedule over routes covering six continents in two continents.

The group's airlines fly close to 1,000,000 miles a month on routes to India, Burma, Ceylon, China and Australia.

Outstanding feature of the airlines is the high safety record; in 13,000,000 miles of flying there have been four fatalities.

Held German Patrol

Twelve-Year-Old Boy Wins Award Of Croix de Guerre

Twelve-year-old Rene Steve was awarded the Croix de Guerre with Bronze Star for having held a German patrol at bay during the final Maquis battles in the Alps a year ago.

He is believed to be the youngest Frenchman ever to receive his award. The accompanying citation said that all of Rene's comrades were wiped out when the Germans attacked French Forces of the Interior positions in the lower Alps, July 8, 1944.

The youthful Steve manned the one remaining machine-gun and held the Nazis off for several hours until he was taken prisoner, the citation said.

Electric Fences

Used Successfully To Control Live Stock In Pastures

Live stock as a rule need little training to keep away from electric fences. Observations at the Dominion Experimental Station at Swift Current, Sask., show that the animals learn, very quickly and do not approach a fence even when it is not charged. At Swift Current, a 13-plate wet battery was used on an electric fence that was used throughout the summer months last year for pasturing cattle. The cattle were well controlled, no harm was done to the cattle or the attendant, and the battery was still charged at the end of the season.

The use of electric fences is gradually becoming more widely adopted for pastures. On the other hand, these fences have many advantages but care is necessary in establishing the equipment. Among the advantages are reduction of cost in erecting temporary fences, reduction of expenditure for wire, posts, and gates, reduction of injury to live stock; the adaptation in the fields of unutilized lands that otherwise might be wasted. As a rule, one or two wires are sufficient to carry the electric current. One wire is sufficient for horses and cattle. Two wires are considered preferable for pigs and sheep. The wire can be supported by porcelain insulators on 2" by 2" stakes set in the ground 30 to 40 feet apart.

SELECTED RECIPES

CRISP BACON TIDBITS
1/2 pound salted bacon
1/2 cup oven-popped rice cereal crumbs
Cold water

Cut each strip of salted bacon into two short pieces. Dip in water, then in oven-popped rice cereal crumbs. Fry in hot frying pan in which a very little bacon fat has been melted. Brown both sides, turning only once. Serve hot.

Yield: 6 servings. Note: 1 cup oven-popped rice cereal yields 1/2 cup crumbs.

VEGETABLE SOUFFLE
1 cup strained spinach or asparagus
1/2 cup milk (scalded)
1/4 tablespoons butter
1/4 tablespoons flour
3 eggs (yolks and whites beaten separately)
1/4 teaspoon salt
Pepper

Melt butter. Blend in the flour. Add the hot milk and cook until mixture is thickened. Cool. Add the lightly beaten egg yolks and the strained vegetable. Season with salt and pepper to suit the taste. Finally, fold in the stiffly beaten egg whites. Pour into greased ring mold or ramequin. Set in a shallow pan of water and bake in a 350 degrees F. oven approximately thirty minutes for ramequins or about forty minutes for ring mold. Yield: Six servings.

BRITAIN'S LIFEBOATS

About \$4,500,000 will be spent in extending and modernizing Britain's lifeboat fleet, the sturdy motor vessels around the coast which give assistance to storm-battered ships. More powerful lifeboats with twin engines and incorporating war-time life-savings aids will be built.

Mount Everest, highest in the world, whose summit is five and one-half miles above sea level, once was completely below the surface of the ocean.

PROMISES FULFILLED—This poster portrait of Mr. Churchill greeted British troops when they arrived in Berlin. The poster, set up by the Russians, is topped by one of Mr. Churchill's earlier utterances: "It is our inflexible purpose to destroy German militarism and Nazism and to ensure that Germany will never again be able to disturb the peace of the world."

Youth Conference

Plans Are Made For World Gathering In Paris

Plans for a world youth conference, to be held in Paris late in October, were outlined in Ottawa by Leut. Svend Petersen, international relations officer for the World Youth Council functioning in London.

More than 45 countries would be represented at the Paris conference and steps now were being taken to arrange for the selection of a Canadian delegation from Canadian youth organizations.

SMALL ORANGES BEST

After three years testing the experts report that the little orange gives a greater return for the money, yielding juice that is higher in solid, acid, flavor and vitamin C than from medium oranges and higher than that from big ones.

Eskimos have the custom of paying the family doctor as soon as he enters the house.

Drive out ACHES

JUST RUB IN MINARD'S "KING OF PAIN" LINIMENT

ITCH CHECKED IN A JIFFY—Or Money Back

For quick relief from itching caused by eczema, urticaria, hives, rashes, sunburn, insect bites, etc., use MINARD'S "KING OF PAIN" LINIMENT. Soothes, cools and quickly cures itching. Druggists everywhere. Price 25c. Money Back.

Local and General Items

Hon. D. L. MacLaren has been appointed lieutenant-governor of New Brunswick.

Winston Churchill has declined a knighthood of the Order of the Garter, one of Britain's highest honors, offered by the King.

Four giant BC dams, two of them longer than the present Grand Coulee dam, are being planned for the Columbia Basin irrigation system in BC, the projects to cost in the neighborhood of \$280,000,000.

Joy Hood, 35, of the High River district, has been declared winner of the \$6,500 bungalow in a draw sponsored by the Army and Navy Veterans Associations, Edmonton branch.

The remains of Roy, infant son of Mr. and Mrs. Walter Poston, of Coleman, were laid to rest in the Coleman union cemetery on Sunday afternoon. Roy died while under an operation in the University hospital at Edmonton.

Sam Scott looks a whole lot younger and vimful since his visit to the Creston district. He says, however, that he couldn't find a berry too big for his swallowing capacity. He enjoyed the trip and is still feeling like speeding at barbering.

The competitive music festival held recently at Brighton, a coast resort in southern England, is believed to have had the highest number of entries known for any similar event in the world. It was its twenty-first festival and there were 3,500 entries.

Oscar Jostad, president and general manager of the Jostad and Nelson Lumber Co., and the Cranbrook Cartage Co., sustained a fractured pelvis and other injuries at the lumber company's stationary sawmill near Cranbrook recently. He was crushed between the mill loading platform and a backing truck.

Nova Scotia is facing the smallest apple crop in many years, not more than 400,000 barrels.

Ronald Fabbro, of Kimberley, has been a patient in the McDougall hospital for some time.

Twenty-five years ago A. B. Trites, of Fernie, sold his Chalmers car to Jim Haddad, of Blairmore.

W. G. Moffatt holidayed for a couple of weeks at Clarendon, the guest of Mr. and Mrs. R. E. Moffatt.

The beer ration for permit holders in British Columbia has been cut to three dozen pints per month.

Mr. and Mrs. R. S. Williams, of Lundbreck, were recent visitors with friends and relatives at Fernie.

Lawrence Ralph Olive, of Blairmore, has enlisted with the Canadian Army at Calgary as truckdriver.

Bombing during the war damaged 1,150 London schools. Damage to equipment is estimated at over \$800,000.

Geraldine Kemp, of Blairmore, was a recent visitor with her uncle and aunt, Mr. and Mrs. "Puffy" Kemp, at Kimberley.

Mr. and Mrs. Herb Snowden, for a long period residents of Coleman, have moved to Vermilion, where Mr. Snowden is district supervisor for the Commercial Life Insurance Co. Herb recently received his discharge from the army.

Britain's ministry of labor has organized a resettlement advice service comprising 228 offices set up throughout the country for the benefit of ex-service people needing advice. By the end of June the number of these centres had reached between 350 and 400, and eventually there will be close to 1,000 of them.

Mrs. Agnes A. Whillans, wife of Dr. David Walters Whillans, of Crossfield, died in a Calgary hospital on Tuesday.

A Tennessee woman 80 years of age has never seen an automobile, which may be the reason she is 80 years old.

Mr. and Mrs. D. G. Mackenzie have returned to Calgary following a week spent at Banff, where they were guests of the Alpine Club.

A bush fire got somewhat out of control north of Coleman on Monday, but has since been well in hand with large gangs of men fighting it.

Returning from overseas last week end were Cpl. J. G. Smith and Pte. E. G. Caswell, Hillcrest; Pte. R. A. Richardson, Burmis, and Cpl. J. Godfrey, Maycroft.

Down in Nova Scotia allowances of whiskey, brandy and gin have been slightly reduced; but rum ration is made about double and is highly recommended.

Mr. and Mrs. Joe Misson returned from Vancouver on Tuesday night via Calgary. They report having had a gay time. The daughter decided to remain a week or so longer.

The McKinley Leather Company's tannery in East Calgary is being dismantled and moved to Regina, where it will become the nucleus of the new \$85,000 government tannery.

Ordered out of Spain after a 90-day stay, Pierre Laval flew to Lins, Austria, and surrendered to United States authorities. Laval was condemned to death in Paris in his absence.

At picnics in Newfoundland they usually have a good supply of what is popularly known as "cough syrup," about five tablespoonfuls to a glass of water. All can have it but those under sixteen.

Mr. and Mrs. D. A. Howe left by this morning's train for Vancouver, where they will attend the marriage of their daughter, Thelma, to Mr. Ingvar Anderson, which is to take place on August 9th.

Blairmore mine is idle today, the first for some months.

Wounded soldiers can now be picked up by planes in flight and transported to base hospitals.

Because of unusually rainy and late spring, Nova Scotia flower shows, etc., are being set back a fortnight.

Dr. and Mrs. R. K. Lillie left by motor yesterday to visit for a brief period at Couer D'Alene, Idaho.

Rev. W. E. and Mrs. Brown left by Wednesday's train for a holiday to be spent at Calgary and Medicine Hat.

The packing plant workers' strike is reported as coming to an end today, with the dispute going before a board of arbitration.

Mr. and Mrs. A. Orlando returned last week end from a holiday with old friends in Drumheller and Wayne, and spending a few days at Calgary.

Bellevue Rockettes, nifty girls' softball team, will meet Woolworth's at Lethbridge this evening in the second round of the Alberta ladies' intermediate playdowns.

For speed, use the airmail. We received a letter per airmail on Wednesday of this week that was posted in Winnipeg Friday, July 27th. The journey can be made by train in less than two days.

Bill Henderson, of the Lethbridge branch of Distributors Limited, was a brief visitor to Blairmore during the week. Bill regretted that there was no chance to get into a real hockey game just now.

Mr. and Mrs. James E. Warner, accompanied by their granddaughter, Mrs. Peressini, and Mr. and Mrs. S. G. Bannan, left by motor today for Vancouver, via Spokane, where they will spend a brief vacation.

From our boys in Australia comes the story of the kangaroo, which, after pausing several times to scratch her stomach, yanked two baby kangaroos from her pouch and thrashed them soundly for eating crackers in bed.

The old residence next the annex of the Comopolitan hotel, on Sixth Avenue, many years ago occupied by Mr. and Mrs. Bob Mills and since then by Mr. and Mrs. A. Pondelick, has changed ownership and is being considerably remodelled and renovated.

Mrs. Jack Patterson went to Calgary last week end to meet her sons, James and Alex, due to arrive there Saturday evening. She was greatly disappointed, however, for the boys had transferred to the Crow line train at Medicine Hat to arrive here early Sunday morning, and were met at the depot by their dad and other relatives. Mrs. Patterson returned on Sunday. James and Alex are looking none the worse for their several years experience overseas.

A smart achievement of the RCMP of Pincher Creek was the arrest of two nefarious characters as they walked the railway tracks in the vicinity of Cowley. James Bennett, of Nelson, alleged to have served a long prison term for previous offences, was given two years in Prince Albert penitentiary. His criminal record is stated to have been on record since 1930. William Carter, of Vancouver, was given nine months in Lethbridge jail for being in possession of house-breaking instruments.—Ex.

Lots of people have trouble keeping their cheque-books properly balanced, especially these days. For instance, can you figure out what is wrong with this example?

Deposit \$100 in the bank, and then
Draw out \$40. That will leave you \$60
Draw out 30. That will leave you 30
Draw out 18. That will leave you 12
Draw out 12. That will leave you 0

Total \$100 Total \$102

—“V”
Daughter: "I can't marry him, mother; he doesn't believe there's a hell."
Mother: "Go ahead, Gracie, it's the most wonderful opportunity to convince him he's wrong."

MEN FOR HOME BUILDING MUST BE SECURED

Home building is highly essential to overcome pressing housing shortages, and to provide dwellings for the Forces as discharged.

Shortages of workers for building homes and for producing the building materials are threatening to impede Canada's program for the construction of 50,000 homes as soon as possible.

All men experienced in home building or in producing building materials, who are not now working in either of these industries, are urged to apply to the nearest office of the National Employment Service immediately.

Men experienced at home building or producing supplies, if now in other essential work, will be given permits to work at jobs which will assist the home building program.

All men, not now at home building nor producing supplies, who can fill a job in this program, are urged to answer this call.

Apply at once at the nearest office of the National Employment Service.

DEPARTMENT OF LABOUR

HUMPHREY MITCHELL A. MacNAMARA
Minister of Labour Deputy Minister of Labour

FROM CANADA TO CALCUTTA

Your bank is a link between the man in Canada who has goods and services to buy or sell, and his customers abroad.

The business of your bank is not all done in dollars and cents. It renders valuable service to Canadian business in the far-off market places of the world, overcoming the obstacles of strange currencies, be they pesos or piasters, escudos or rupees.

Through its commercial correspondents and business connections all over the globe, your bank often has the specialized information necessary to bring buyer and seller together, no matter how far apart they live.

Your bank is able to gather information on the reliability of foreign firms, to handle letters of credit, to arrange the complicated exchange of funds, performing an individual, intricate and inexpensive service to importers and exporters alike.

This feature of Canadian banking has a direct bearing on your welfare. It has, through many years, developed the sale of Canadian goods abroad, resulting in more jobs for Canadian men and women.
